Mrs. Everything

By Jennifer Weiner

Mrs. Everything A Novel

From Jennifer Weiner, the #1 New York Times bestselling author of *Who Do You Love* and *In Her Shoes*, comes a smart, thoughtful, and timely exploration of two sisters' lives from the 1950s to the present as they struggle to find their places and be true to themselves in a rapidly evolving world. *Mrs. Everything* is an ambitious, richly textured journey through history and herstory as these two sisters navigate a changing America over the course of their lives.

“Maybe I am different. Being different isn't the worst thing.”

Mrs. Everything is just that—she's everything and every woman. She's the collective voice of you, me, our mothers, grandmothers, aunts, sisters, friends, neighbors and acquaintances. She's the gamut of emotions, triumphs, sacrifices, and heartbreak that feed into the way we view the world. She's a piece of fiction that hits home with the notion that self-discovery is a continuous journey for each one of us.

In a story that spans gener... “Maybe I am different. Being different isn't the worst thing.”

Mrs. Everything is just that—she's everything and every woman. She's the collective voice of you, me, our mothers, grandmothers, aunts, sisters, friends, neighbors and acquaintances. She's the gamut of emotions, triumphs, sacrifices, and heartbreak that feed into the way we view the world. She's a piece of fiction that hits home with the notion that self-discovery is a continuous journey for each one of us.

In a story that spans generations, Jennifer Weiner taps into the heart of life. From the expectations we set for ourselves to the varying degrees of reality that often take shape instead.

On the longer side, this novel follows two sisters—Jo and Bethie—for the entirety of their existence. From childhood to the trying times of adolescence and the woes of adulthood, their dueling storylines bring forth topics likely to resonate with women from all backgrounds. The beauty of the extensive timeline is witnessing the influence of an ever-changing society on the hopes and dreams of the two sisters.

Jennifer Weiner is an author that hits the high notes when it comes to relatability. From the characters she presents on the page, to the topics that formulate, her words speak the language of everyday women. Chances are, we've all faced challenges similar to Jo and Bethie or know someone who has.

There are those times when we read to breathe in a different life than our own. And others when we

Mrs. Everything

seek out novels like Mrs. Everything, an experience that offers a sense of solidarity and sisterhood.

*A HUGE thanks to Atria for providing a copy in exchange for my honest thoughts. â™¥ ...more

Mrs. Everything Weiner

“She wondered whether they would ever not try to have it all and do it all and do all of it flawlessly. Would the day ever come when simply doing your best would be enough?”

Wife, mother, daughter, sister, friend, aunt, caretaker, career women: Mrs. Everything attempts to cover it all. Spanning decades and told through the alternating narrative of two sisters, Jo and Bethie, who grew up in Detroit in the 1950s, Weiner explores the complex relationship between women, while at the same time, ex “She wondered whether they would ever not try to have it all and do it all and do all of it flawlessly. Would the day ever come when simply doing your best would be enough?”

Wife, mother, daughter, sister, friend, aunt, caretaker, career women: Mrs. Everything attempts to cover it all. Spanning decades and told through the alternating narrative of two sisters, Jo and Bethie, who grew up in Detroit in the 1950s, Weiner explores the complex relationship between women, while at the same time, examining and subverting gender norms.

Mrs. Everything tries to be everything: family saga, drama, women’s fiction, and a feminist manifesto. At times, Mrs. Everything struggles to find its place, but there is an ease about the narrative that draws the reader into Jo and Bethie’s lives. Both sisters’ stories are equally interesting. The lengthy timeline allows the reader to watch Jo and Bethie struggle with finding fulfillment. It’s a long journey towards self-acceptance.

Mrs. Everything serves as a tribute to the brave women who try to do it all and think that they have to do it all. In the end, it had me ugly crying as I reached the final pages and said goodbye to Jo and Bethie.

“I want to be brave like that.”

I received an ARC of this book from NetGalley and Atria Books in exchange for an honest review.

Mrs. Everything

timely message and is being published at the most opportune moment. In a world in the midst of the #metoo movement and feminism on the rise, it's the type of book that women can rally behind and promote with ease. It's also a book that I'm struggling to talk about, because it's an epic, sweeping saga of sisters, mothers, and daughters, and to divulge any details would be to take away from your own reading experience.

In the forward of my arc, Jennifer Weiner writes a preface that describes where the inspiration for this story came from. Her own mother was born in the 1940's, married a man and had children, divorced him and ended up falling in love with a woman. I think the vulnerability and raw appeal to this novel is the fact that it covers a lifetime, not just a year or two, and the choice to delve into something deeper and a little more serious was an excellent choice for the author. You'll laugh, you'll cry, but you won't forget Mrs. Everything after you finish it. Highly recommended for those looking for a relevant historical fiction that expresses the journey of what it means to be female, past and present.

*Many thanks to the publisher for providing my review copy. ...more

Mrs. Everything Reviews

Josette (Jo) and Elisabeth (Bethie) Kaufman were sisters who came of age in 1950s Detroit. Jo is a tomboy, more comfortable in old clothes and running around playing sports, while young Bethie was content with being the pretty, talented one, the center of attention. Not much changed as the two approached their teenage years, much to their mother's chagrin. Jo became more outspoken in trying to understand civil rights and social justice, while Bethie starts understanding that her beauty gives her an interesting form of power.

But a family tragedy leads to a traumatic incident for one sister and self-discovery for the other, and both impact their lives and their relationships. As time moves on, Bethie becomes a free spirit, traveling the world, never putting roots down in one place, immersing herself in the counterculture and embracing the idea that women should have whatever they want. Jo, on the other hand, becomes a traditional housewife in Connecticut, raising two daughters and wondering how she wound up living the life she is. Both are content in their own ways but aren't truly happy, but at the same time, aren't sure they are willing to shake things up enough to make change happen.

Mrs. Everything follows Jo and Bethie to the present day, chronicling the journey of these two women as they struggle for happiness, love, and fulfillment, even when they believe they can't have all three simultaneously. They have triumphs and deal with tragedies, they turn toward each other and turn away, and try to be true to themselves and who they are. It's a novel that has an almost epic feel to it.

"'We lose ourselves,' she repeated, forming each word with care, 'but we find our way back.' Wasn't that the story of her life? Wasn't that the story of Bethie's? You make the wrong choices, you make mistakes, you disappear for a decade, you marry the wrong man. You get hurt. You lose sight of who you are, or of who you want to be, and then you remember, and if you're lucky you have sisters or friends who remind you when you forget your best intentions. You come back to yourself, again and again. You try, and fail, and try again, and fail again."

I've never read anything that Jennifer Weiner has written, so when I was offered the opportunity to read Mrs. Everything I jumped at it. Weiner says in a note that appears at the start of my advance copy that she was inspired by Michael Cunningham's *A Home at the End of the World* and Susan Isaacs' *Almost Paradise* (two books I loved) to write a book that followed its main characters all the way through their lives. She also said she wanted to write about a character like her mother, whose life moved in unexpected and unbelievable ways.

Mrs. Everything

The arcs that Weiner's characters' lives follow are very believable. These are women whose stories have been told so many times yet they need to be told many times more. This is a fascinating exploration of the roles women play within their families, within their marriages and relationships, and within society. There isn't necessarily anything surprising in this book but that doesn't matter; it's still a powerful book with strong messages.

I really enjoyed the way Weiner writes and felt completely immersed in the story. I felt like things dragged a bit at times, but real life isn't always exciting either. I do read a fair amount of so-called "women's fiction," but this is one book that I'd imagine will resonate more with women than it did with me, although I still felt moved by it.

NetGalley and Atria Books provided me an advance copy of this book in exchange for an unbiased review. Thanks for making it available!

The thought of this book gives me strength. Every day I get stronger. Every book I stumble upon that is about women and their relationships to each other empowers me. Every story ever written runs in my veins. I am a power until the day I physically read those books in which I become the ultimate life form.

What I mean is: I can't fucking wait to read this book!

Mrs. Everything A Novel By Jennifer Weiner

4.25 Stars

“Mrs. Everything” by Jennifer Weiner speaks to the masses. In this day and age, it is both timely and full of heart! It’s a story about connections. Women who are mothers, sisters, wives, lovers, friends, supporters, heroes and oh so much more.

Jo and Bethie are sisters and “Mrs. Everything” is their story. It takes place over the course of decades. There are trials and tribulations as each woman struggles and tries to be everything to everyone, including each other. As sisters, the re 4.25 Stars

“Mrs. Everything” by Jennifer Weiner speaks to the masses. In this day and age, it is both timely and full of heart! It’s a story about connections. Women who are mothers, sisters, wives, lovers, friends, supporters, heroes and oh so much more.

Jo and Bethie are sisters and “Mrs. Everything” is their story. It takes place over the course of decades. There are trials and tribulations as each woman struggles and tries to be everything to everyone, including each other. As sisters, the relationship between Jo and Bethie is real and true. When experiencing hardship, the pain Jo and Bethie feel is palpable, as is their joy. There were times when I raised my fist in a “eyes, you go girl” moment and times when my eyes were filling with tears and I just cried my little heart out.

As someone whose only sibling is a sister, this story resonated with me. My sister and I are four years apart and are very different, thus we were treated very differently by our parents, just like Jo and Bethie. Though I am the younger sister, I resonated with certain parts of Jo, the tomboy, the girl who loves jeans and who is hard working, no nonsense and serious. I am equally sure that my sister would relate to Bethie, beautiful, popular and successful. I will be sure to send my sister a copy of this book upon its release to find out for sure!

That’s the thing: “Mrs. Everything” is relatable to everyone, especially here and now - with what is going on these days. This is a story that will make you feel intensely and is one that makes you think - about what others are going through and how you can help.

I very much enjoyed reading this novel as I loved the story of Jo and Bethie. “Mrs. Everything” is on the longer side and is therefore a slower read, thus it is one to be savored. This is now the third book that I’ve read by Jennifer Weiner and it is my favorite by far!

Thank you to Ariele Friedman at Atria Books for an arc of this novel in exchange for an honest review.

Published on NetGalley and Goodreads on 5.26.19.

4.5 for bellbottoms and Beatles--but oh so much more!!

What a great surprise! I thought I was signing up for some nice-and-light chick lit, but oh, was I ever wrong! We follow two sisters, Jo and Bethie, from childhood to seniorhood. Their lives are anything but nice and light, and I got pulled in immediately. Thereâ€™s drama coming out their ears, yet itâ€™s not gratuitous, overdone, or unrealistic. Weiner, who Iâ€™ve always thought was a good writer but definitely on the light side, created a more s

4.5 for bellbottoms and Beatles--but oh so much more!!

What a great surprise! I thought I was signing up for some nice-and-light chick lit, but oh, was I ever wrong! We follow two sisters, Jo and Bethie, from childhood to seniorhood. Their lives are anything but nice and light, and I got pulled in immediately. Thereâ€™s drama coming out their ears, yet itâ€™s not gratuitous, overdone, or unrealistic. Weiner, who Iâ€™ve always thought was a good writer but definitely on the light side, created a more serious and expansive story here (which was her plan, as she says in the Intro). Her storytelling chops are on full display. The plot is well paced and nearly flawless. And itâ€™s juicily unpredictable; I loved having no idea what was going to happen next and getting slapped in the face with some dramatic, unexpected turn of events. The characters are complex and vivid, and they pressed my emote button. I even cried once!â€”and Iâ€™m not a crying kind of reader. Although the language isnâ€™t jazzy, I liked how clear and smooth it isâ€”not pretentious or convoluted. And her descriptions, theyâ€™re something else!

Women baby boomers, you MUST read this book! Down memory lane we go! And if you were in the counter-culture (especially if were wild and crazy), you will really get your mind blown. Weiner has the 1960s and 1970s down pat; I was transported! Remember putting your pajamas under the pillow when you made the bed? Remember the deep pink indentations that your garter do-hickies made on your thighs? Does Metrecal ring a bell? All these images (and hundreds more) from a long-ago past are apparently stored on the hard drive inside my skull, and it was a kick to make them dance. I had no idea they were still up there in the old nogginâ€™, just waiting to be reactivated!

And of course, the images stirred up memories and that was when Iâ€™d daydream for a bit, taking little side trips of my own. (Maybe some of our senior ADD happens because we get distracted by our memories?) Weiner really did her homework; sheâ€™s not a baby boomer herself. Youâ€™d think she was, based on how well she understands that time period. Iâ€™m betting her mom was the key source, as Weiner mentions her in the Intro and it seems that the story is loosely based on her life.

So yes, the descriptions are out of this world. I usually whine relentlessly about writersâ€™ detail-itis, but here, Iâ€™m not poo-pahing it one bit. I was glued to the page. I couldnâ€™t take my eyes off any of itâ€”the clothes, the rooms, the colors, all the spot-on pop-culture references. Weiner is one of those excellent writers who makes you feel like youâ€™re watching a movie. Usually, a writer talking about the color of bellbottoms would annoy the hell out of me. Here, I appreciated being able to see the movie in technicolor. (Iâ€™d love it if they took this story to the big screen. Theyâ€™ve made one of Weinerâ€™s

Mrs. Everything

books, *In Her Shoes*, into a blockbuster movie, so maybe it will happen again.)

So it was the first third of the book, where Jo and Bethie were kids and teens in the 60s and 70s, that made me crazy happy. I was hopping around on my pogo stick while wearing my bellbottoms and holding a transistor radio blasting the Beatles' "We All Live in a Yellow Submarine." (Pretty impressive that I can hold a radio while hopping on the pogo stick, huh?) I couldn't stop talking about the book; it was magical. I give that part of the book 10 stars, hands down.

Don't worry, I'm not saying that the rest of the book was bigtime inferior; it just wasn't as intense, and I didn't have the memory game going so much. I still loved it.

But there was one thing that kept me from giving the book 5 stars, and it's that the women's lib part was too pushy. I don't think the book needs an agenda. Sexual abuse was a topic, and Weiner handled those scenes expertly and they got my dander up like they were supposed to. But there was a consciousness-raising scene in the early part of the book that I found embarrassing way too cliched. I know Weiner was going for authentic, and authentic it was (women really did attend official consciousness-raising meetings). I just was bored and annoyed reading it. She could have left out the dialogue, which in its rhetoric seemed sophomoric. Later in the book, there's more sexual politics, and it felt a little male-bashy not terribly so, but I didn't like it.

It was so exciting to take this long journey with the two sisters and to watch their internal turmoil. I liked how realistic the book was, and I enjoyed their complex and intense relationship. Some of their choices made me cringe, others made me sad "oh please don't do THAT! Do you really think that's a good idea? Don't you see you're messing up?! Only a great writer can make me get so wound up about characters in a book! They're not real people, Debbie, take it easy! She also made me shut my mouth and not rail against angsty teens. You won't hear a peep from me this time, even though there was ample angst. Maybe it's because she made Jo and Bethie so likeable. And their angst seemed so real and justified and understandable.

There's probably something in the book that every female can relate to "I found several things, including living with a hyper-critical mom. And of course, I identified with some of the unsavory choices made during the hippie days. And the kind of bizarro scenes that you're thrown into, and which catch you off guard and leave you speechless and sometimes traumatized. There was at least one harrowing scene that had me by the throat and will stay with me a long time. It reminded me of the trouble you can get in when you make bad decisions in your early 20s (before your prefrontal cortex is fully developed).

There were a couple of super minor things that should have been resolved and a couple things that didn't ring true. (For example, a character paid their bills when they went bankrupt, even though bankruptcy means you don't have to pay your bills.) Oh, and I ran across a joke that I recently heard Jay Leno make! The writer should have referenced it as a public joke; instead, I felt Weiner was trying to pass it off as an original funny. But we're talking picky picky here. This was one satisfying read.

Mrs. Everything

Iâ€™m surprised that this book isnâ€™t touted as an LGBT book, as Jo is gay. The beginning of the book chronicles her trying to come to terms with her budding sexuality; it was so well done and very intense. I really got a feel for how insanely difficult being a lesbian in the 60s and 70s would have been.

Also depicted: life in a Jewish family, sexual abuse (and its aftermath), weight issues, drugs, the good and bad of the free-love days. It made me think about the death of dreams, what people want versus what they settle for, the wandering lost souls of the young, the price of bad decisions, the loss of innocence, longing, discontent, internal conflicts.

What a book! Iâ€™m still reeling and it has been a while since I finished it. Definitely a favorite book of 2019! Grab it when it is published in June.

Thanks to NetGalley for the advanced copy. ...more

Mrs. Everything Riverdale Rd

A high 4 stars!

Wow! I really didn't expect to like Mrs. Everything as much as I did. I've read some of Jennifer Weiner's novels in the past, and I think of them as entertaining but generally quite light. This felt different. The story spanned four generations, covering what felt like complex situations while delivering real emotions. I found myself fully engaged and was oh so grateful to have a leisurely Saturday to plough through most of the book and grateful for a few tissues too. The story A high 4 stars!

Wow! I really didn't expect to like Mrs. Everything as much as I did. I've read some of Jennifer Weiner's novels in the past, and I think of them as entertaining but generally quite light. This felt different. The story spanned four generations, covering what felt like complex situations while delivering real emotions. I found myself fully engaged and was oh so grateful to have a leisurely Saturday to plough through most of the book and grateful for a few tissues too. The story focuses on sisters Jo and Bethie I hadn't made the Little Women connection until now starting in the 1950s when they are children. At first, it feels like Weiner is portraying Jo and Bethie as overly recognizable types Jo is boyish and at odds with her mother and the world, while Bethie is pretty, feminine and popular. But things turn out to be way more complicated. And the complications reverberate through the generations. I don't want to say too much to avoid spoilers, but I will say that I loved how Weiner wove in political issues about women's roles, sexual politics and race relations without letting politics make her characters unidimensional. The only thing that kept me from giving this novel 5 whole stars were a couple of coincidences that irked me, but these were minor flaws. Overall, this was a powerful contemporary tableau of women in the 20th and 21st centuries. I'll definitely be on board to read Weiner's next novel. Thanks to Netgalley and the publisher for an opportunity to read an advance copy. ...more

I enjoyed this book, which focused on two sisters. Jo, the older sister who's great at sports and hates dresses, and Bethie, who is constantly dieting so she can be the lead in school musicals. From the fifties through the sixties up until modern times, their lives don't go in the way you might have predicted when you first met them as kids.

Some of this was hard to read. There is sexual abuse that isn't described explicitly (at least not the rape), but how it impacts the character and the other I enjoyed this book, which focused on two sisters. Jo, the older sister who's great at sports and hates dresses, and Bethie, who is constantly dieting so she can be the lead in school musicals. From the fifties through the sixties up until modern times, their lives don't go in the way you might have predicted when you first met them as kids.

Some of this was hard to read. There is sexual abuse that isn't described explicitly (at least not the rape), but how it impacts the character and the other characters is not easy reading. Weiner never goes

Mrs. Everything

for the easy happy ending, but pointing out that religion, gender, sexual orientation, and race ensure that there is no such thing as an easy life with easy choices.

So why I can't say this is a super fun summer read, it is a good one that will keep you turning pages to find out what happens. Recommend.

Thanks to NetGalley for the opportunity to read this novel, which RELEASES JUNE 11, 2019.

Mrs. Everything Lyrics

This book was EVERYTHING! So powerful, so emotional, so beautiful, so absorbing. I was completely invested from page 1 in these character's lives, I did not want the book to end. This book spans five decades as we watch sisters Jo and Bethie figure themselves and the world out. From Detroit to Atlanta, from the 50s to the 2000s we watch these sisters and those they love navigate their way through this thing we call life. We see them succeed and fail, grow and stumble, love and lose, laugh and cry. This book was EVERYTHING! So powerful, so emotional, so beautiful, so absorbing. I was completely invested from page 1 in these character's lives, I did not want the book to end. This book spans five decades as we watch sisters Jo and Bethie figure themselves and the world out. From Detroit to Atlanta, from the 50s to the 2000s we watch these sisters and those they love navigate their way through this thing we call life. We see them succeed and fail, grow and stumble, love and lose, laugh and cry. Jennifer Weiner evoked every possible emotion in me with her words. I laughed, I cried, I smiled, and I shook my head. Life is hard and it is complicated. Neither Jo or Bethie had it easy, but they fought and loved their way to their best lives. This was an unforgettable book that left me with a smile on my face and a tear in my eye.

I wrote the above last night and I was going to add to it today, but I don't think I need to. But I will say this being pride month I think this book really did a wonderful job with Jo's struggle to truly accept herself. Of course this became easier as the country became more tolerant, but still can you imagine having to repress your true self for years and years and years? And I'm sure this was much more common than we know. I hope that one day everyone will be accepting of who people choose to love. This book really brought home how far we have come, but we still have so far to go. OK I will stop preaching! Just do yourself a favor pick this book up and read it, it is quite fabulous!

*** Big thanks to Atria for my copy of this book *** ...more

I started reading Mrs. Everything on 5/30/2019 and finished it on 6/3/2019. This book is an excellent read! A wholesome story from childhood to adult life, growing up and having children to finally having grandchildren; multi-generational. Bethie's middle and high school seems so bright with her success in acting and singing, I just couldn't believe the choices she made starting first year in college. Jo's high school and college seems tough being different but I'm also really surprised how she I started reading Mrs. Everything on 5/30/2019 and finished it on 6/3/2019. This book is an excellent read! A wholesome story from childhood to adult life, growing up and having children to finally having grandchildren; multi-generational. Bethie's middle and high school seems so bright with her success in acting and singing, I just couldn't believe the choices she made starting first year in college. Jo's high school and college seems tough being different but I'm also really surprised how she ended up being a housewife with children. I do like the unexpected twists and turns of events for Bethie and Jo throughout their life because I couldn't have guessed it. I like that Bethie reunite with her high school fellow actor later and the unforeseen success that came to her in later years.

Mrs. Everything

This book is told in the third person point of view following Josette (Jo). Jo has a wife and 3 daughters. Jo has been cancer-free for 5 years, but now she's receiving a call from her doctor about a lump on her other breast. She wants time to fix everything and worry that this cancer thing will prevent her from doing them. This book started out in year 2015 and then divided into different parts starting with part 1 in year 1951, part 2 in year 1962, part 3 in year 1974, part 4 in 1987, part 5 in 1993, part 6 in 2006, and part 7 in 2016. The second view is Elizabeth (Bethie), Jo's younger sister. Each chapter Jo and Bethie, both are Jews, grow older and experience anything life throw their way: inequalities, biracial marriage, unexpected external forces, unplanned personal decisions, etc. Jo and Bethie were forced to grow up quicker when an unexpected event takes place.

Mrs. Everything is well written and very detailed. At times I find myself getting tired of reading about Jo and Bethie's lives because of how in-depth it was. Each area of their lives are well carved out and same goes with their kids. In general, that should make this book a good read but I feel it just drags on. Besides that, I love seeing how one decision affects another and how a future could be lost based on an impulse decision. I love that Jo has a family of her own but I also wanted her to have that life that she planned for in college. I like learning where Jo went wrong with her youngest. It's interesting how Bethie drift around for a decade and still her life doesn't turn out too bad, though there are sacrifices. This book on family should be read at least once and I highly recommend everyone to read it.

Pro: multi-generational family, growing up, timeline starting 1951, perspectives from a Jewish family

Con: detailed therefore the length of this novel

I rate it 4.5 stars!

Mr. Everything Menu

Special thanks to NetGalley and the publisher for a free, electronic ARC of this novel received in exchange for an honest review.

Jennifer Wiener's newest novel, "Mrs. Everything" is more socially relevant today than any other novel I've read this year.

Jo and her sister, Beth, grow up in a world of bell bottoms and mind-altering drugs, a society where women are the primary caregivers and homemakers, and the men are the breadwinners. As they grow together throughout changing decades, Beth and Jo begin to see the changes in society, but also the parts of life that have not changed that much, at least for women.

Special thanks to NetGalley and the publisher for a free, electronic ARC of this novel received in exchange for an honest review.

Jennifer Wiener's newest novel, "Mrs. Everything" is more socially relevant today than any other novel I've read this year.

Jo and her sister, Beth, grow up in a world of bell bottoms and mind-altering drugs, a society where women are the primary caregivers and homemakers, and the men are the breadwinners. As they grow together throughout changing decades, Beth and Jo begin to see the changes in society, but also the parts of life that have not changed that much, at least for women.

Wiener has touched on a very politically charged topic in "Mrs. Everything", while still tugging on heart strings with her depiction of the relationship between two very different sisters, over the course of many decades.

Both Jo and Beth face entirely separate struggles, but they are both strong and powerful characters, full of likable characteristics. Their relationship with each other is honest and real, turning to each other no matter what has happened between them, when the world around them caves in.

"Mrs. Everything" is entertaining, heart-warming, emotional and powerful, with memorable characters and a bittersweet ending.

I enjoyed the ups and downs of the sibling relationship, and the struggles and challenges faced by Jo and Beth (and their mother, Sarah, as well as Jo's daughters) and this kept me engaged in the novel.

Although I do not claim to be ignorant of the issues in today's society, I tend to shy away from novels with any form of political message, not because I wish to bury my head in the sand but because novels are my form of escape from the outside world of chaos and insanity.

A well written novel with well-developed characters and a powerful message, "Mrs. Everything" has something that every female will connect with. It is surely a novel that will resonate with the

Mrs. Everything

feminine side of any reader, and will definitely leave you cheering and determined to make everyone stand up and listen.

...more

Jennifer Weiner, you have truly outdone yourself with this one.

Having read every single one of Weiner's books, it's safe to say that I was reallllllllly waiting impatiently for her to release new fiction (it's been four years since *Who Do You Love* was released). Well, I can truly say it was worth the wait.

Mrs. Everything is the story of Jo and Bethie, over their entire lifetime - sisters who are as different as they come but the most important person in the world to the other. This is the st Jennifer Weiner, you have truly outdone yourself with this one.

Having read every single one of Weiner's books, it's safe to say that I was reallllllllly waiting impatiently for her to release new fiction (it's been four years since *Who Do You Love* was released). Well, I can truly say it was worth the wait.

Mrs. Everything is the story of Jo and Bethie, over their entire lifetime - sisters who are as different as they come but the most important person in the world to the other. This is the story of the lives of two Jewish women who grew up in a confusing time as descendants of immigrants in Philadelphia. This is the story of love, family, self-discovery, exploration, friendship, relationships and what it means to be yourself.

I cannot recommend this book enough, Bravo, Jennifer Weiner.

Thank you to Atria for an advance copy. All opinions are my own. ...more
